# Welcome to the Engineering UTC Northern Lincolnshire

The Engineering UTC Northern Lincolnshire is a fantastic £11million, purpose-built school which opened in September 2015 for 14-19 year olds.

Specialising in a wide range of engineering areas and delivering subjects that allow students to achieve up to 8 GCSEs, including English and maths in Year 11, and 4 A-levels in Year 13. We provide a broad and balanced education that helps to put students onto a structured career path.

Employers' involvement is strong and allows us to give students experiences that they wouldn't usually have in a school. We are proud of the many partnerships we have and the facilities available that allow students to explore engineering in an environment with thousands of pounds worth of specialist equipment.

We accept applications from  
across the region for places in  
Year 10 and 12 all year round.

UTCs are backed  
by around 500  
employers and 50  
universities.

If you are interested in joining us,  
you can attend one of our many open  
events or register your interest and  
apply online at [www.enlutc.co.uk](http://www.enlutc.co.uk).

At Engineering UTC Northern Lincolnshire, your career  
in engineering starts when you walk through the door.

## A message from the Principal...

The Humber region is changing and companies need engineers to serve a growing industry. At Engineering UTC Northern Lincolnshire, we work to fill that need.

We understand the importance of high standards in education and are passionate about putting the school at the heart of developments in the Humber 'Energy Estuary', with very enthusiastic and hard-working staff supporting students to be ready for the world of work or university.

---

Our facilities are first class and we believe that through our dedication to engineering, manufacturing and design, we open up a world of opportunity. I believe that excellent relationships and brilliant teaching make this school a truly inspirational community.

---

We have unique links with industry, giving students chances to access all that is available from our many sponsors. I am passionate about creating a school that you feel comfortable to approach, have confidence in, and send your children to in the knowledge that they are receiving not just a good education, but a pathway to a fantastic career.

I am always happy to show visitors what we have to offer. Feel free to get in touch.

Best wishes,  
Marc

## Why Engineering UTC Northern Lincolnshire?

---

Engineering UTC Northern Lincolnshire is a new type of school where students work on real projects designed and delivered by top companies across the Humber region, including leading research carried out at the University of Hull.

---

Built around core national curriculum requirements, students will be encouraged to work independently on tasks that reflect challenges employers face on a day-to-day basis and will be expected to display values such as respect, reliability and integrity.

We have a unique approach to education that offers:

- Exciting and engaging curriculum
- State-of-the-art building with excellent industry standard facilities
- 21st century ICT facilities
- Learning which relates to business and industry
- Enrichment programme in partnership with the University of Hull
- Mentoring for all students
- Mature, business-like environment
- Academic excellence in specialist sectors
- Excellent progression opportunities
- Learning with key industrial partners to develop high-demand employability skills

# Engineering Manufacturing Design

At GCSE level we offer Cambridge Nationals which are vocationally related qualifications that take an engaging, practical and inspiring approach to learning and assessment.

They're industry relevant, geared to key sector requirements and very popular with schools and colleges because they suit such a broad range of learning styles and abilities. We offer Level 2 qualifications in Design, Manufacturing and System and Control, leading to the equivalent of three GCSEs. There is also the option to do a Business qualification. The courses teach students a huge range of skills relevant to industry.

At post-16, we offer Cambridge Nationals and learners can take up to two specialist pathways in this qualification depending on their choice of units.

The pathways are:

- Electrical and electronic engineering
- Mechanical engineering and design
- Automation, systems and control
- Manufacturing

Learners will cover nine topics; some are examined and some are tutor assessed.

As well as Engineering, we deliver GCSEs in:

Maths, English language and literature, physics, chemistry, computer science, optional subjects and A-levels in maths, further maths, chemistry, physics or computer science.

Industry-standard extra qualifications are also offered.

Graduate  
Chemical  
Engineer  
£30k (Scunthorpe)

We set you up to go into  
the world of work or  
university by offering you  
everything that you need.

# Entry Requirements

## Year 10

Engineering UTC Northern Lincolnshire is open to any student who is keen to ready themselves for a career.

All applicants will be considered in a fair manner and through a transparent process. Students will need a passion and interest in engineering and an aptitude for technical and academic modes of study.

## Year 12 Sixth Form

5 A\* to C GCSEs including English and maths (Grade 4 or equivalent)

4 A\* to D GCSEs – Bridging pathway entry

Download your application form now at [www.enlutc.co.uk](http://www.enlutc.co.uk).

If you have any questions please call us on [01724 878100](tel:01724878100).

## Our Partners

**Engineering UTC Northern Lincolnshire,**  
Carlton Street, Scunthorpe, North Lincs DN15 6TA
