#SkilledForLife

Welcome

Dear students, parents, carers, teachers, governors, industry partners and all UTC supporters,

Thank you for joining us again on our roundup of the past few weeks at ENL UTC, it's been full to the brim of activity once again and students have been involved in engaging employer activities, meaningful encounters and have constantly been learning new employment skills to add to their portfolio.

We have had visits from University of Lincoln looking at revision techniques, our female engineers all took a trip to Phillips 66 to celebrate International Women In Science day to tour the site and enter their labs, Our year 11 students went over to Mark at CATCH to learn more about their apprenticeship routes during National Apprenticeship week and much, much more!

We have had more Governors evenings, recruitment events, workshop and lab action and Engineering & Construction exams which our students all took within their stride.

Outside of business hours has seen the UTC busier than ever with students wanting to be involved in further activities from building lamps & tealight holders, playing football to building Formula 24 cars and hosting a fantasy world. All great after school clubs which are helping out students learn

more, release some energy and help build their communication and teamwork skills.

Here is to another amazing half term at the UTC.

Best wishes,

**Anesta McCullagh
and the ENLUTC team**

Welcome

Careers, Employability and Destinations

Employer engagement is a core element throughout the ENL UTCs curriculum. More than ever before, it is vital that our young people understand the world of work and the key employability skills that will put them at the forefront of sustainable employment and higher education opportunities.

Through our exciting careers programme and weekly lessons, our students have been super busy this half term with the following activities -

- Phillips 66 Site Visit
- CATCH Workshops
- National Apprenticeship Week
- University of Lincoln Engineering Visit
- Core Partner Q&A Sessions
- Site Visits
- Skill Building

Connecting Education to Industry!

Extra Curriculum Central!

ENL UTC has not only been a hive of activity between business hours but also some of our students have chosen to stay back after school to take part in extra curriculum. We have multiple clubs running currently including Formula 24, Lamps & Woodwork, Tea & Talk (to help boost our mental health for any students who need to talk), Dungeons & Dragons, Drawing Club and even Football!

If any students who are not currently involved in any after school activities wish to join, just speak to a teacher in school!

National Careers Week

We have launched National Careers Week with a bang!

We officially launched work experience, then straight into launching the Westlinks Kitchen Design Project. We talked about teachers prior careers, looked at 'who I want to be', and had a visit from North Lincolnshire Council to finalise details for the Discover event.

#NationalCareersWeek
#skilledforlife

Women in Science – P66

Our female engineers were kindly invited to visit Humber Refinery tomorrow on International Women in Science Day and which also fell in National Apprenticeship Week! They visited labs, took a tour and met some fantastic personnel working in the industry.

Students attended their Health and Safety briefing, received key information about the company and started thinking of questions to ask the day before the big trip!

Safer Roads Humber

Performance in Education visited ENL UTC on behalf of Safer Roads Humber to raise awareness of seat belts, safety in the car and the consequences of not doing so. Our students all took extremely valuable lessons from this session.

Thank you to the team for an engaging lesson with our students.

Humber Outreach Programme Revision Session

HOP - Humber Outreach Programme delivered an excellent session on Revision Techniques with our year 11 students in the Phillips 66 Skills Hub, to coincide with their timetables for mock exams after the holidays.

Year 11 then built their personalised revision timetables, allowing for plenty of time for eating, sleeping and breaks.

Year 13 National Pizza Day Mental Health Drop In!

It was not only National Pizza Day recently but also Children's Mental Health Week!!

Some sixth form students took both days extremely seriously with a pizza order for lunch and a mental health session, talking about everything they are proud of for the week. Our year 13's check in every Wednesday and discuss their achievements.

Coffee Anyone?

Parents & carers of year 9 and 10 visited the UTC (some for the first time due to covid) and took part in our open coffee morning for the opportunity to look at students work, progression and new skills.

There was coffee, tea, lots of cake and smiles as parents & carers were guided around the UTC to get a glimpse of a day in the life of our students.

#Skilledforlife

British Science Week

As part of British Science Week, our students got to take part in a whole host of practical experiments across all year groups!

Chemistry & Engineering teacher Harry, loved getting hands on with a fireball whilst our students learnt about chemical reactions!

Workshop Wonders

It's Electrifying!!

Some of ENL UTC Year 9 students had a practical session on the Van De Graaff Generator supervised by Josh. As you can see it was a 'thrilling' lesson throwing cake wrappers in the air, bending water and making hair stand on end!!

More students have been busy in the workshops again recently, learning the importance of working precisely and the use of hand tools alongside machine work.

Great job!

#SkilledForLife

Sign Language Week

As part of Sign Language Week, our Health Sciences students have been taking part in an introduction to British Sign Language for only 5 weeks (that's only 5 hours!) yet have picked up enough to have fluent conversations using BSL only!

As part of **#SignLanguageWeek** our HS&SC helped to teach the rest of their classes how to sign during tutor time and performed 2 songs in BSL.

#SkilledForLife

Grimsby Golf Club Mania

Thank you to Grimsby Golf Club for an amazing morning in the swing centre and on the putting green. Josh the Golf Pro, along with his team and our Chair of Governors spent time teaching our students golf etiquette and professionalism, as well as teaching them basic golf skills.

We have some budding pros to join the next tour Grimsby Golf Club Pro Shop are available to book schools and colleges now.

ENL UTC
Supports

ENL UTC Supports Ukraine

We have been supporting our friends across Ukraine and all of the countries helping with the movement of people. Here is a selection of our blue and yellow students raising money for this important cause.

A huge thank you to McArthur Agriculture for taking our donations for the Ukraine appeal. Our toiletries and sanitary donations are now winging their way to the people that need them most.

McArthur Agriculture

Bradbury Group Apprenticeships Tour

A huge thank you to Bradbury Group for hosting 10 of our year 11 students to an apprenticeship afternoon during National Apprenticeship Week 2022! Touring the factory, learning about both Bradbury Group & Youth Engineering Scunthorpe and taking part in some apprenticeship based activities for the afternoon.

It left our students pondering what a career with YES and Bradbury Group may look like with some applications moving forward in their careers lessons.

#NAW2022 #utcsbuildthefuture #SkilledForLife

CATCH Tour

Yesterday 16 of our students braved the windy weather of the east coast and headed to CATCH training facility based in Stallingborough.

Our students attended a tour of the training facilities (including a snippet of working at heights!), they got to discuss CATCH apprenticeships and got to take part in a practical session with Mark looking at using some different hand tools and learning about precision on the job!

Thank you Mark for giving our students another great opportunity!

International Womens Day 2022

This International Women's Day, we wanted to take a moment to celebrate the past and future achievements of women globally. Our students are bold, independent, strong and passionate and we just know they will all go far.

#IWD2022

#InternationalWomensDay2022

#SkilledforLife

“Here's to Strong Women: May We Know Them.
May We Be Them. May We Raise Them.”

GRP at ENL UTC

The January Grimsby Renewable Partnership meeting took place at our ENL UTC Campus in Scunthorpe.

Business from all across the region joined us to take part in networking and listen to speakers. Some of our students have chosen to stay behind and take part in this live event to meet with local business people. We heard from businesses all across the region on their exciting new plans and developments and look forward to attending further GRP meetings.

University of Hull

Our Year 9 students studying engineering spent the day at University of Hull with a Chemical Engineering masterclass, HE talk and tour. We had a wonderful lunch in the sun and were visited by alumni students who are loving their courses in Chemical Engineering, Mechanical Engineering and Robotics & Mechatronics. Thank you to Beth and team HOP - Humber Outreach Programme for a fabulous day!

#SkilledForLife

University of Hull

HOP - Humber Outreach Programme

Grid for Good

National Grid In partnership with YE delivered the **#GridforGood** programme to Year 11 and Year 12 students on Friday as a days conference in the P66 Skills Hub.

Students learned about roles, how National Grid are getting to **#NetZero**, and application processes. Our students were able to network with the team, developing their communication and presentation skills further.

Students attending can now access an online mentor to take them through the application process for advanced and higher apprenticeships, as well as graduate jobs in the future as part of their certificated training.

Our students really are **#skilledforlife**

University of Lincoln

Our year 12 & 13 students enjoyed an Engineering masterclass very kindly provided by the wonderful team at University of Lincoln. A huge thank you to Ben for inviting us on a fabulous day!

15. Biofilms Halloween Writing Competition

Biofilms Halloween Writing Competition

Last year some of our year 9 students entered the National Biofilms Innovation Centre Halloween annual writing competition, creating a scary story around biofilms and antimicrobial resistance!

Amazingly, 3 of our students have been crowned in 1st, 2nd and 3rd place winning themselves Amazon vouchers to spend on themselves. Our students chose to purchase drawing equipment, books and some new handlebars for their bike!

They all also received a certificate to add to their portfolio, a Microbiology taster session at University of Hull and will have their stories featured online and in Microbiology Today.

Well done students!

#SkilledForLife

Discover Event

What a fantastic day working with North Lincolnshire Council to deliver the Discover Day. We really were not expecting so many wonderful families to turn out for this amazing event. Well done to all of the exhibitors for their interactive activities. A special thank you to our amazing students who never fail to make us proud; you really did a great job.

#TeamUTC

Watch this space for our next one!

Young Enterprise Dragons Den

This year's Young enterprise Year 12 team, CTU22 have really hit the ground running with their entrepreneurial skills, CTU22 is a team of year 12 students who have entered Young Enterprise for a shot at not only creating a successful business but also to be in with a chance of winning some great prizes!

CTU22 went in front of judges from across the region in a Dragon's Den style pitch against other teams within the competition to sell their brand, product and business plan. They received some great feedback and the judges loved the product idea.

Keep your eyes peeled on our social media and website for the launch of their incredible new business!

British Army Activity Day!

Our entire year 10 group and some of our year 9's headed over to Queen Elizabeth Barracks in York to take part in an activity day set out by British Army.

They spotted the sniper, improved their observation skills, took part in target practice on the paintball range, learnt basic medical skills from the Medics and tackled the infamous assault course even in the rain.

The bus was certainly a lot quieter on the way home than it was on the way!

#SkilledForLife

National Apprenticeship Week

We are excited to have celebrated National Apprenticeship Week **#NAW2022** once again at the UTC. We had visits to Humber Refinery with our female engineers for International women in Science Day, year 11 students to Bradbury Group, and many quizzes, webinars, and 'The Big Assembly'. If you are a parent/carers and want to know more about apprenticeships and the amazing opportunities locally please go to

apprenticeships.gov.uk/influencers/naw-2022

and if you are wanting to understand more with your child, please contact Jen at the UTC.

**#SkilledForLife #UTCsbuidthefuture
#NAW2022**

The Big Assembly

Another great activity for our students as part of **#NAW2022**, The Big Assembly!

Our students have joined in with a live session to talk about all things apprenticeships including myth busting, feedback from employers and hearing from former and current apprentices.

Certificate Celebrations

On Thursday 10th February we invited back all our previous leavers of 2021, both year 11 and year 13 to catch up, see how they was getting on in their new roles (Both in and out of the UTC!), collect any certificates and to have a small celebration of their time here.

There was pizza, pop and plenty of laughter in the UTC that night!

Once UTC, Always UTC.

ent

Upcoming Events

We have lots of exciting events in the pipeline, with restrictions easing further each month, we are making more plans to get perspective new students into ENL UTC! The following dates are currently booked in, however keep an eye on our website/social media as we release more information –

Open Event

Our next open event is now live and tickets can be booked for Thursday 30th June! Come along and meet our teachers, explore our care suites, workshops and classrooms and get to know what life at ENL UTC is like straight from our students.

Tickets can be booked to find out more about both year 9 and year 12 September 2022 starts.
